ESSENTIAL INFORMATION TO KNOW BEFORE YOUR VISIT

SEASON & OPENING HOURS

OPEN ALL YEAR

Winter: 10:00 - sunset

Summer: 10:00 - 19:30

SPOT OVERVIEW

Throughout the year, favorable conditions for wind sports can be found, particularly from April to September, when consistent thermal winds averaging 25 knots prevail. The bay-like configuration and the presence of the pier in the north provide unique safety conditions, making this spot one of the best in Europe for kite and windsurfing. Regarding surfing, bodyboarding, and stand-up paddleboarding (SUP), excellent swell conditions are offered, especially from October to May. Offshore winds persist only in the summer mornings, establishing the beach as a prime destination for surfers of all experience levels.

WIND FORECAST

<https://www.windguru.cz/54473>

In the afternoons from May to September, you can expect a thermal wind coming from the northwest under clear skies. With these conditions, you can add an additional 10 knots to the forecast.
